Write Me an Adventure

"I Loved the Way You

**THANKS TO N.I.A.,
SELLS ARTICLE
FOR \$125.00**

"I count the training N.I.A. gave me invaluable. Last spring I had a children's book published, which has had many favorable comments. Also, I have had several feature articles published. I have just received \$125.00 for an illustrated commercial article on 'The Scallop Industry.' Your constructive criticisms, analysis of work and promptness in correction gave me a big boost."—Mr. P. F. Whitten, 28 Mechanic St., Attleboro, Mass.

**Why Can't YOU Write
FOR PROFIT?**

It's much simpler than you think!

SO MANY people with the "germ" of writing in them never get started. Some simply suffer from inertia. Others question their own ability to become professional writers. Often they hold back because of a mistaken idea that all published writers are gifted with a rare genius.

Few, indeed, are aware that editors everywhere constantly seek fresh, new talent to write the great bulk of commercial work turned out daily. That's why so-called "unknowns," find a ready market for their material.

Men and women, like yourself, write most of the fiction, advertising copy, TV and radio scripts you see and hear and countless articles on business, current events, social matters, hobbies, travel, local, club and church activities, etc., as well.

Such material is in constant demand. Every day thousands of checks for \$25, \$50, \$100, and much more go out to writers, many of them N.I.A. trained, whose latent abilities were perhaps no greater than yours.

Learn and Earn by Writing

There is only *one* way to learn writing—by writing! That is why Newspaper Institute of America bases its writing instruction on the training method that turns out more successful authors than any other experience. It keeps you writing in your own home, on your own time, upon *actual assignments*. You learn to observe, to dramatize, to write fully from life, not merely from your imagination or by studying the individual styles of model authors.

Your work is analyzed constructively by professional writer-editors. They help to clarify your own distinctive style. Writing soon becomes easy, absorbing. Profitable, too, as you gain the "professional" touch. With this expert guidance, many N.I.A. students sell material easily written in sparetime early in their training, often with their first assignments.
