4 - classification - to restrict of act

- problem:  $\text{CPI}$  - classified all cases as obscene violence, obtained as sexual violence
- no way violence = pornography
- suggest term obscenity dropped - define violence

## BRCA Ship And Not Under Committee

- 1982 convention BRCA - base of concern:
  - panoraphy
  - castle to steal information of from inside through OSI
- It's the bridge - delayed by media & superior
- side by after that congress. to control called for action - put it up to make it proven with
  - held press conference in late 1982 BRCA - proposed revised - input - media coverage changed
  - had little time to organize - over 1000 people out of support
  - collaboration on BRCA who had function - public action - to side of opposing organize
  - new people came out
  - the country couldn't find small group critic
  - side effect: the BRCA was in Richmond - gave part of BRCA to BRCA to each other in form

- combination's protest + action - forced  
to take action -
- Jan. changes laid
- initially didn't expect results + changes  
afterwards' causes
- stayed out just once / most mistakes -  
developing, theft in non-violent  
area
- even if got legal system to act on  
work - got w/ electronic garbage
- decided on comm. ministry study  
important idea - focus on det. +  
policy + control -
- cost of computer of software + hardware  
less written + interpreted by man
- unlikely to get laws - diff. of making  
for legal protection + making community  
statement
- national. in saying: we want to  
let power back after fixing
- part. as limited time diff: other can  
then provide source - part: an  
source just fight - credit distinct  
w/ social work
- Strategy: legal controls: Moral  
of safety - no discussion of who to

- reading 3: ambivalence (about)
- how the freedom of speech - you never  
 come about consciousness of "repeated" ★  
 why not? - it's right to protest  
 against
- academic work: not just socialised -  
 focus on it - seems unworkable
- smaller actors: protest at the last time:  
 dumped your film
- same too
- United way: employees. SAFE = got  
 George Fothergill, Thomas Callaghan

- more products useful: but smaller  
 group might: interesting to have a  
 small group
- more regular business
- corner store - getting magazines out  
 - possess newspaper to get rid of ads  
 - stores - dealers at radio that
- with P&G: toward your areas of dis-  
 affecting business - P is losing
- P&G: told to have 2:1 ratio - left quiet
- P&G really involved - already had  
 consented to prove that advertising legal  
 - we've - had a whole industry

Prime Minister - enjoying virtual unrestricted freedom of speech in domestic.

- why frustrating to attempt to debate not productive - as comments using def. comment.

① type of censorship used to deflect criticism - freedom of speech not issue.

② the word censorship and flag -

- letters: not in favour of prior censorship boards

- limits on money

- broad requirements

- q. of citizenship.

- legal controls not meant to pt. down

- 1980's concerns

① whether govt has right to interfere

② whether current gov't system, using view

③ Canada has not got an absolute notion of freedom of speech

new decisions list - Freedom not always available

At least not when in terms of constitutional according to structure case -

- education: practical competence

↳ by the way: present narrative text: abstract  
law - introduced text on showing of  
paranomy → law made, still present

- by using hand book it get put together

- for actual classes: marriage

- demand explicitness  
Paranomy

- just didn't change ~~to~~ volume laws  
KAP

- now have new law to make things to some

- do in fair timetable - big change - use  
words of "Q" & so involved - doing against

space

- from as have workplace

- had been other of structure of

- method of course - structured to

coming to it-hand led

- capturing means of media production

use for art production

- will - help / deal w/ damage

## Math problem: for Economists

Suppose that the production function for a firm is given by

$$Q = 100L^{0.5}K^{0.5}$$

where  $Q$  is the quantity of output,  $L$  is the quantity of labor, and  $K$  is the quantity of capital. The firm's cost function is given by

$$C = 10L + 20K$$

Suppose that the firm's total cost is \$1000. Find the firm's profit-maximizing level of output,  $Q$ , and the firm's profit-maximizing level of labor,  $L$ , and capital,  $K$ .

Hint: The firm's profit function is given by  $\pi = Q - C$ . The firm's profit-maximizing level of output,  $Q$ , is the level of output that maximizes  $\pi$ .

Hint: The firm's profit-maximizing level of labor,  $L$ , and capital,  $K$ , are the levels of labor and capital that maximize  $\pi$ .

Hint: The firm's profit-maximizing level of labor,  $L$ , and capital,  $K$ , are the levels of labor and capital that maximize  $\pi$ .

Hint: The firm's profit-maximizing level of labor,  $L$ , and capital,  $K$ , are the levels of labor and capital that maximize  $\pi$ .

Hint: The firm's profit-maximizing level of labor,  $L$ , and capital,  $K$ , are the levels of labor and capital that maximize  $\pi$ .

- one-dimensional  
just concept of responsibility & other
- only from individual perspective

- if look at big picture - there are  
D with more freedom of speech, some +  
some + others

- if: what kind of context

- hypocrisy - American Court likes: allowed  
Nazi to march through Chicago Jewish  
community

- freedom of speech: level of social, economic  
etc.

② Nazis: advocate violence as if  
education view that if acceptable people  
learned to see world accept public/  
private - if kept silent - prevent  
Harm attributable (by looking)

- esp. to look split - not just consumer  
of pain of affected: look if it had at the time

- dispute on other side more complex -  
some freedom of speech till prove harm -  
that enough proof -

- now courts (not individual) to make if  
comply with images on screen - that's

## what about it

- limit energy to

→ UKC  
provision

- have to look at legal controls - insurance  
that happen in public - insurance is subject - this  
is not other word - org. to put provisions to  
insure they are
- have to talk about education - org. don't  
star that if no use of law to control the  
work - by time had effect from other word: the  
fact

- Major Cities:

- only man could be typewriter - came open  
books: typical to kill
- Machine Typewriter - center - standard copy in  
England
- Wife's groups started across country -  
London - to find her shop - looked at films -  
operators: 6/11 shop  
South - print - water
- from shop - became others  
- not printed on screens
- Scientific examination: wife to blame  
to prove if repeat - train left off with description

- same value as comedy
- pig ignorance

## Handling the media:

- doing public things - way of getting to people - how to get them to behave
- newspapers + control: analysis - advertising over reports
- reports - no control: difficult control

BJO, Wang Kang - the system  
problems classical & individual

- tangible fear
- story on why legal system as response - good story to political journalist
- make it local hypocritical: media not of the country

- color going to media - desirable good
- opt: solution: research
- find out who buys prod. strds.
- actors do have strong views from groups -
- desirable - grp. of university students
- history
- early prod. prod.
- transfer rights - at the time -
- do work simultaneously - lead to multi-  
media -
- collaborative manner needed by strength of  
movement
- power: the role - media content - strategies to  
use energy - front + cinema -
