

Lesbian Group:

1. What's wrong with group - 45
2. Goals & objectives - 1 hour
3. Rest - 15 minutes

What's wrong:

- some with ideas of what, some without images
- too long & drawn out process -
- images not given of what to be done - not articulate who aiming at
- structure of group → came in - how to vote - not how to put into movement - pushes people away -
- E: - at conference - lesbians org. is right - 1st meeting ground very clear - entire meeting round of what doing - happened energy there - speaking out → further away from own needs to org. is right - ~~easy to get abstract~~
- structure familiar - easy to get abstract - who needs it
- I: - none from conference could handle meetings - would lose all ♀ - some way to bring ♀ ad - forget to make lesbian pol. act. organized - is right - looks - cover all - new places covered - social events; bring more ♀ bases outreach in *

- have to fight way in -
- way we speak - need smaller groups - network - try different form - organizers - expertise -
- ACTION oriented - so involved in process & lack of educational paralysis -
- analyze eight as part of what doing - integrate into activeness - Research ≠ useful - Freedom -

A - first round concrete - only talked about rounds etc. - gotten away from focus - agreed not to talk about things - pretexts not to fight → what to do -

- vagueness - lack of direction - fear of being out
- diff. branches -
